Hi (b) (6)

No problem. I will be out of town that day, but how about setting up a phone call for some time next week.

Best

Darin

Darin, Good morning. I am very sorry, but I didn't hear back from you on that last email and now my day is slammed. A friend of mine is getting buried in Arlington on August 31st and that's the next time I am in DC. Any chance we could meet later in the day on the 31st? Say 230-3ish? Very sorry for not following up. (b) (6)

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and (b) (6) is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and Chris is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting

experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and Chris is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and Chris is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and Chris is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and Chris is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and Chris is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and Chris is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

On Thu, Jul 20, 2017 at 12:27 PM, Dan Caldwell <(b) (6)@cv4a.org> wrote:

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and Chris is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

(b) (6) and (b) (6)

It was good to meet with you today.

I wanted to digitally introduce you both to Darin Selnick – who is currently Senior Advisor to Secretary Shulkin at the VA. Darin was previously CVA's Senior Advisor and really helped grow and focus our organization.

Darin – (b) (6) runs Boulder Crest Retreat for veterans and Chris is on their board and also is someone who has done a lot of political and advocacy in Arizona. Both are good contacts to have and they are both very interested in the future of VA care in the community. They also have had some interesting experiences engaging with the VA that I think might be worth you hearing.

(b) (6) and (b) (6) let me know how else I can be helpful.

Thanks,

Dan Caldwell

Darin, Good morning. I am very sorry, but I didn't hear back from you on that last email and now my day is slammed. A friend of mine is getting buried in Arlington on August 31st and that's the next time I am in DC. Any chance we could meet later in the day on the 31st? Say 230-3ish? Very sorry for not following up. (b) (6)

Hi,

Did you folks receive my email?

Is your organization willing to help Veteran patients who are injured as a result of VA medical malpractice/negligence?

Congressman Bilirakis and I caught VA IG Missal in a lie. The VA does not want to investigate VA doctors.

<http://time.com/4758706/donald-trump-veterans-affair-accountability-whistleblower-office/> "Secretary Shulkin's hands will be tied until Congress passes strong accountability legislation," said (b) (6) executive director of Concerned Veterans for America. Lucas said the office was a "positive first step" but not enough to fix the culture at the VA."

CVA Executive Director Lucas / CVA Deputy Executive Director Anderson: (703) 224-3200

You folks are doing a great job for the Veteran community! On your website, the CVA says, "The VA is failing to keep its promise to veterans and military families across the country. And due to the changing size and nature of the veteran population, the VA culture will only get worse if we don't fix it now." You folks are absolutely right!

Would you please provide contact info for the new VA Office of Accountability and WP Protection? So far, it's a well-kept secret. Unfortunately, Dr. Shulkin is the kind of doctor who refuses to take action against other doctors who are injuring Veteran patients – despite what he tells the national media.

Further, I caught IG Missal lying to Congressman Bilirakis when he claimed in writing that he did not have the authority to investigate the falsification of VA medical records. If you want the details and the evidence (which I have), I will provide it upon request. US Senator Rubio's staff hand delivered my complaint against IG Missal to Dr. Shulkin, yet Dr. Shulkin has refused to confirm receipt and he has refused to act. He is the only VA official who has the authority under the Federal IG Act to 'supervise' IG Missal. Dr. Shulkin knows that IG Missal is refusing to hold offending VA doctors accountable – and he refuses to act.

In addition, I have spoken with the USDOJ. The Tampa US Attorney will not conduct a prosecutorial review unless a federal investigation is conducted first. Since the VA OIG has refused to investigate, the VA doctors who hurt me and the Bay Pines VAMC / VISN-8 officials who buried my complaints will not be held accountable. UN – FREAKIN – BELIEVEABLE!

I just spent a week at the Mayo Clinic in MN. The best doctors in the world thoroughly examined me. They have confirmed the medical problems that the VA doctors refused to acknowledge or treat. A two year delay in receiving any VA medical care because of VA medical malpractice/negligence and criminal fraud (a VA doctor deliberately misrepresented my medical condition/falsified my VA medical records to cover-up the medical malpractice/negligence of his VA peers.) The two year inaction of a number of VA doctors created permanent physical injuries – and a lot of severe, disabling pain. The medical evidence I have recovered is now crystal clear – it establishes VA medical malpractice/negligence and criminal fraud, but Dr. Shulkin refuses to act – and he refuses to provide this Veteran patient the courtesy of an explanation!

VA medical malpractice is at a crisis level – and the VA refuses to respond. If this new VA OAWP refuses to investigate, I would appreciate CVA's help in exposing another VA accountability 'sham' to the Veteran community.

Please confirm receipt.

Thanks,

(b) (6)

Subject: Mayo Clinic Experts Join With USF Health Professors of Neurology (and other Non-VA Neurosurgeons) Confirming Veteran's Neuropathy & Spinal Problems

Veteran's Complaints Of VA Medical Negligence and Fraud (falsification of VA medical records) Are Substantiated - Again! Veteran Asks For A VA OAWP Investigation

Question: When Is Dr. Shulkin Going To Act On A Complaint (delivered to his office by US Senator Rubio's staff) Reporting That VA IG Missal Lied to Congressman Bilirakis?

Dr. Shulkin Has Authority Under The Federal IG Act To Supervise VA IG Missal And Hold Him Accountable For Refusing To Do His Job

Dr. Agustines:

Thank-you for your help! I completed the Mayo Clinic diagnostic tests up in Rochester, MN last week as directed. I met with Dr. Peter J.B. Dyck on Friday, 05/12/17. His father and he are world-renowned neurological experts. After undergoing hours of different kinds of spinal MRI's, extensive NCS/EMG testing, and other neurological tests, Dr. Dyck agreed with other non-VA medical experts who have examined me. He said that I do have a neuropathy, along with cervical and lumbar spine problems which as you know is contrary to the VA's position. Further, Dr. Dyck believes S1 nerve impingement is responsible for my severe SI joint pain.

I'm wondering how many more medical expert opinions I have to secure before Dr. Shulkin stops this VA medical negligence cover-up and acknowledges that several VA officials are, in fact, responsible for acts of medical malpractice/negligence (resulting in permanent physical injuries) and fraud (the deliberate falsification of VA medical records)?

Question: Do you believe Dr. Shulkin to be the kind of doctor who is willing to report other VA doctors who act negligently - injuring a Veteran patient and then falsifying VA medical records in an effort to cover-up the negligence? I'm wondering if he adheres to AMA Policy # 9.031 (shown below). I'm also wondering if he has ever reported a negligent, incompetent, or unethical doctor as the AMA Code of Ethics requires. According to the AMA's Council on Ethical and Judicial Affairs, it states, in part, as follows: "Many of the Council's opinions lay out specific duties and obligations for physicians. Violation of these principles and opinions represents unethical conduct and may justify disciplinary action such as censure, suspension, or expulsion from medical society membership." It has been brought to Dr. Shulkin's attention that several negligent, incompetent, and unethical VA doctors hurt me; however, he has yet to ask for an investigation or report these VA doctors.

Please let me know when all of the Mayo records (Dr. Dyck's office notes, MRI's, and all of the test results) are in my VA medical file so that I may obtain copies. You are shown as the requesting VA doctor, so the records should be sent to your attention. Please request a NVCC consult with Dr. Ryan Glasser for me (the neurosurgeon in Sarasota, FL who did my back surgery) so that surgical options for my cervical and lumbar spine problems may be discussed. It took a Congressional inquiry to get Dr. Glasser the VA approval to remove parts of my lumbar spine in order to resolve painful sciatic nerve root impingement problems – problems the VA doctors said I didn't have. Dr. Glasser established that I do have spinal problems requiring medical care.

Over the past six (6) years, I have been forced to endure an extremely painful challenge - all because of VA medical negligence and fraud. I understand the VA doesn't want to hear this. The VA has done everything possible to bury my complaints, but the best neurological experts in this country have just confirmed what many non-VA medical experts have been telling the VA since March 2012; I do, in fact, have a neuropathy and spinal problems requiring medical care. It's disturbing to note that the VA doctors refuse to agree with these non-VA medical experts. The VA doctors have turned a blind eye to the medical evidence to avoid accountability. Various senior VA officials (including the VA OIG) have refused to investigate because the VA clearly does not want to hold these unethical VA doctors and VA administrators accountable for their misconduct, even though negligence and fraud has resulted in permanent physical injuries to a Veteran patient.

Timely and competent VA medical care back in March 2011 would have prevented the fusing of three vertebrae that has resulted in a reversal of the normal curvature of my cervical spine. VA negligence now requires me to undergo annual RFA surgical procedures for pain management because the VA doctors refuse to approve the recommended cervical surgery. Minimally invasive surgery would have repaired/replaced two herniating/leaking cervical discs thereby preventing the surrounding cervical vertebrae from fusing together. (See the above attachments) Further, it took several Congressional inquiries (and over four years) to secure VA approval for badly needed back surgery to free two lumbar nerve roots from spinal impingement. This was no mistake – the films show the spinal impingement. Dr. Triggs deliberately misrepresented my medical condition to avoid medical malpractice/negligence accountability for his VA peers.

A number of VA doctors have disregarded clear and convincing evidence of neurologic and spinal problems, and they have refused to provide a professional standard of care. Without question, it has been established by a number of respected medical experts that Dr. Triggs did enter false statements in my VA medical record – statements which were found by VA paid medical experts (not my experts) to

be in conflict with his own test results. Dr. Triggs deliberately falsified my records in an effort to cover-up acts of medical negligence that had been committed by other VA doctors. The delay that this unlawful and unethical deception caused resulted in permanent physical injuries. For almost two years, I was deprived from receiving the medical care I was entitled to receive by law. Further, the VA (VAMC and VISN-8 officials re: VA Directive 700 - AIB), the VA OMI, and the VA OIG (including Dr. Daigh, Jr.,) has steadfastly refused to investigate in an apparent effort to protect the offending VA officials. So, there has been no accountability to date.

At my request, Congressman Bilirakis inquired as to why the VA OIG had refused to investigate. IG Missal lied to Congressman Bilirakis in his written response dated 11/04/16 when he said he didn't have the 'authority' to investigate. The Federal IG Act not only gives IG Missal the authority to investigate; it also imposes a duty and a responsibility to investigate. Four months later, IG Missal reversed himself under oath in front of the C-SPAN cameras while testifying at a US House Committee on Veterans Affairs hearing on this 'authority' to investigate issue. IG Missal admitted that he does have the authority to investigate, yet he still refuses to do so – without explanation. This isn't a case of insufficient evidence or IG Missal would have said so. This is all about a VA agenda that betrays the Veteran community's trust by refusing to investigate in order to refrain from holding the offending VA doctors and VA administrators accountable for their misconduct.

Now that it has been established beyond any reasonable doubt that acts of VA medical negligence and fraud have occurred, I renew my request for an investigation to establish accountability. I would appreciate your support. On 05/12/17, Dr. Shulkin publicly announced the establishment of the VA Office of Accountability and Whistleblower Protection. As is detailed in the Executive Order announcing this new VA entity, the Executive Director will:

- *Advise and assist the Secretary in using, as appropriate, all available authorities to discipline or terminate any VA manager or employee who has violated the public's trust and failed to carry out his or her duties on behalf of Veterans.

- *Work closely with relevant VA components to ensure swift and effective resolution of Veterans' complaints of wrongdoing at VA.

- *Work closely with relevant VA components to ensure adequate investigation and correction of wrongdoing throughout the VA, and protect employees who lawfully disclose wrongdoing from retaliation.

VA medical negligence reportedly costs American taxpayers over a hundred million dollars a year in injury awards and that amount is estimated to involve less than 10% of the total number of Veteran patients who are actually harmed as a result of delayed, denied, and negligent VA medical care. Medical negligence is a crisis the VA refuses to address. They reportedly do not have enough doctors to service the Veteran community now, so they are not interested in holding 'bad' doctors accountable.

By copying him via this email, I am asking VA OAWP Director Peter O'Rourke to please investigate my complaint of VA medical negligence and fraud in accordance with CIGIE professional investigative standards. As a retired law enforcement investigator and a former civil judge, the evidence I have recovered proves the allegations of VA misconduct I have reported beyond a reasonable doubt. And, if this new entity refuses to investigate, my complaint will serve to expose another VA 'accountability' sham on the Veteran community.

Since the VA OAR (that was established by former VA Secretary McDonald) proved to be a sad joke,

many injured Veteran patients are anxious to see whether the VA OAWP will act in accordance with its published mission statement. I renew my request to Dr. Shulkin that he ask Mr. O'Rourke to investigate my complaints (in addition to my complaint against IG Missal) in an effort to hold all of the offending VA officials accountable. Should Dr. Shulkin refuse to do so (he reportedly refused to confirm receipt of a complaint I filed with him against IG Missal even though a member of US Senator Rubio's staff hand delivered a copy of my complaint to his office), I will ask President Trump to replace Dr. Shulkin for cause if he continues to bury valid complaints from Veteran patients in an effort to cover-up the misconduct of VA doctors and VA administrators.

In closing, the VA's ongoing efforts to avoid accountability are historic. Former Chairman of the US House Committee on Veterans Affairs Jeff Miller was right when he said, "To see all of the deception and incompetence at the VA with no accountability and no action, it is more than just a shame – it is a national disgrace."

I ask that Dr. Shulkin and Mr. O'Rourke please confirm receipt of this email communication. The VA says they adhere to 'I-CARE' values. Now would be a great time to work together to identify a number of VA officials (including senior officials) who need to be held accountable for what they have done. Again, Veterans remain at risk of harm because there has been no accountability assessed against these unethical VA officials.

Sincerely,

(b) (6)

E-mail: (b) (6)

<https://www.usatoday.com/story/news/politics/2017/04/26/trump-order-va-accountability-whistleblower-office/100939062/>

The office will investigate allegations of misconduct – including retaliation against whistle-blowing employees who reported abuses — and seek to identify systemic barriers that have previously hindered the agencies' top leaders from more adequately addressing such problems in the past, including with disciplinary action. VA Secretary David Shulkin told reporters the new office will report directly to him. "Accountability is an important issue to us at VA and something that we're focusing on to make sure that we have employees who work and are committed to the mission of serving our veterans, and when we find employees that have deviated from these values, we want to make sure that we can move them outside of VA and not have them working at VA," he said, adding that Trump's creation of the office by executive order demonstrates how committed the president is to the issue as well. The VA already has an Office of Accountability Review that was created in 2014 to "ensure leadership accountability for improprieties related to patient scheduling and access to care, whistleblower retaliation, and related

matters that impact public trust in VA.” But Shulkin said that office reports to the agency’s general counsel and is focused on senior VA leaders. The new office will look at all VA employees.

<http://www.ama-assn.org/ama/pub/physician-resources/medical-ethics/code-medical-ethics/opinion701.page>

Opinion 1.01 - Terminology

The term "ethical" is used in opinions of the Council on Ethical and Judicial Affairs to refer to matters involving (1) moral principles or practices and (2) matters of social policy involving issues of morality in the practice of medicine. The term "unethical" is used to refer to professional conduct which fails to conform to these moral standards or policies.

Many of the Council’s opinions lay out specific duties and obligations for physicians. Violation of these principles and opinions represents unethical conduct and may justify disciplinary action such as censure, suspension, or expulsion from medical society membership.

Opinion 8.021 - Ethical Obligations of Medical Directors

Medical directors acting within the professional sphere, such as when making decisions regarding medical appropriateness, have an overriding ethical obligation to promote professional medical standards. Adherence to professional medical standards includes:

(1) Placing the interests of patients above other considerations, such as personal interests (eg, financial incentives) or employer business interests (eg, profit). This entails applying the plan parameters to each patient equally and engaging in neither discrimination nor favoritism.

Opinion 9.031 - Reporting Impaired, Incompetent, or Unethical Colleagues

Physicians have an ethical obligation to report impaired, incompetent, and/or unethical colleagues in accordance with the legal requirements in each state and assisted by the following guidelines:

Impairment. Physicians’ responsibilities to colleagues who are impaired by a condition that interferes with their ability to engage safely in professional activities include timely intervention to ensure that these colleagues cease practicing and receive appropriate assistance from a physician health program (see Opinion E-9.0305, "Physician Health and Wellness"). Ethically and legally, it may be necessary to report an impaired physician who continues to practice despite reasonable offers of assistance and referral to a hospital or state physician health program. The duty to report under such circumstances, which stems from physicians’ obligation to protect patients against harm, may entail reporting to the licensing authority.

Incompetence. Initial reports of incompetence should be made to the appropriate clinical authority who would be empowered to assess the potential impact on patient welfare and to facilitate remedial action. The hospital peer review body should be notified where appropriate. Incompetence that poses an immediate threat to the health and safety of patients should be reported directly to the state licensing board. Incompetence by physicians without a hospital affiliation should be reported to the local or state medical society and/or the state licensing or disciplinary board.

Unethical conduct. With the exception of incompetence or impairment, unethical behavior should be reported in accordance with the following guidelines and, considering, as necessary, the right to privacy of any patients involved:

Unethical conduct that threatens patient care or welfare should be reported to the appropriate authority for a particular clinical service. Unethical conduct that violates state licensing provisions should be

reported to the state licensing board. It is appropriate to report unethical conduct that potentially violates criminal statutes to law enforcement authorities. All other unethical conduct should be reported to the local or state professional medical organization.

When the inappropriate conduct of a physician continues despite the initial report(s), the reporting physician should report to a higher or additional authority. The person or body receiving the initial report should notify the reporting physician when appropriate action has been taken. Physicians who receive reports of inappropriate behavior, including reports submitted anonymously, have an ethical duty to critically, objectively, and confidentially evaluate the reported information and assure that identified deficiencies are either remedied or further reported to a higher or additional authority. Information regarding reports or investigations of impairment, or of incompetent or unethical behavior should be held in confidence until the matter is resolved.

Opinion 9.04 - Discipline and Medicine

Incompetence, corruption, or dishonest or unethical conduct on the part of members of the medical profession is reprehensible. In addition to posing a real or potential threat to patients, such conduct undermines the public's confidence in the profession. A physician should expose, without fear or loss of favor, incompetent or corrupt, dishonest, or unethical conduct on the part of members of the profession. Questions of such conduct should be reported and reviewed in accordance with Opinion 9.031, "Reporting Impaired, Incompetent, or Unethical Colleagues."

Subject: VA medical malpractice/negligence is a crisis the VA won't discuss. Injured Veterans are requesting help!

To: US HCVA Chairman Roe

Cc: US HCVA Vice Chairman Bilirakis

US SCVA Chairman Isakson

US Senator Rubio / US Senator McCain

Medical malpractice costs the VA over a hundred million taxpayer dollars a year! I am a victim of VA medical malpractice/negligence. For almost two years, the VHA said I had no spinal problems requiring medical care, so they denied me the medical care I was entitled to receive by law. Over four years after

I first presented in pain, US Congressman Jolly was able to get the VA to approve badly needed back surgery. A non-VA doctor neurosurgeon removed parts of my lumbar spine to correct a serious nerve root impingement. The impingement was clearly seen on my films by all non-VA doctors. Once I exposed the fact that the VA doctors had acted negligently, they turned a blind eye to the medical evidence and they refused to see what all the non-VA doctors pointed out in my films – clear nerve root impingement problems.

VA medical malpractice is a crisis the VA refuses to address. And, with Dr. Shulkin in charge, it appears he is refusing to hold VA doctors accountable no matter how much evidence a Veteran patient provides showing malpractice. The same criticism goes for IG Missal who lied to Congressman Bilirakis to keep from investigating my complaint of a VA doctor falsifying VA medical records to cover-up acts of VA medical malpractice/negligence. I asked Dr. Shulkin to confirm receipt of a complaint against IG Missal for acting unlawfully and unethically in violation of his oath of office several months ago and to date – Dr. Shulkin has refused to act. So, US Senator Rubio sent a senior policy analyst to hand deliver my complaint to Dr. Shulkin's office – and Dr. Shulkin has still refused to confirm receipt. Veterans know what our elected officials apparently don't know; VA officials lie and lie and lie...

Former Chairman Jeff Miller was right when he said, “To see all of the deception and incompetence at the VA with no accountability and no action, it is more than just a shame – it is a national disgrace.”

Well on April 27, 2017 when this new VA task force activates, I have asked Dr. Shulkin to ensure that my complaints of gross patient abuse/medical malpractice/negligence which have resulted in permanent physical injuries are investigated. How much do you want to bet that this VA task force will refuse to investigate? McDonald's new 'VA Accountability Team' refused to investigate and they had a similar mission. Veterans who have been harmed are asking the US House and US Senate Committees on Veterans Affairs to please ensure that our complaints are professionally investigated in accordance with CIGIE standards.

In my case, several VA paid medical experts (two professors of neurology and a neurosurgeon) reviewed the medical evidence and found that VA Dr. Triggs' not only misdiagnosed my spinal problems; the statements he entered into my VA medical file were found to be false and in conflict with his own test results. Dr. Triggs lied in an effort to cover for his VA peers! My back surgery established serious spinal problems that had to be corrected by surgery. So, I did have spinal problems requiring medical care, yet the VA still has refuses to investigate the VA doctors in question and they refuse to correct my records. The VA (even under a new VA Secretary and a new VA IG) remains in a covert denial mode. They provide great PR soundbites to the media, but the fact that Veteran patients know very well is that VA medical malpractice is a crisis that is harming/killing Veterans – and our most senior VA officials refuse to do anything about it – other than cover it up!

The VA refuses to conduct a professional investigation as it does NOT want to hold offending VA doctors accountable. This is why I am asking our elected officials to please act and for the media to please report on this crisis – please.

Thanks,

(b) (6)

Vet 'dumbfounded' after VA drops ball on brain mass diagnosis

By JACK ENCARNACAO | The Boston Herald (Tribune News Service) | Published: May 2, 2017

U.S. Marine combat vet Brian Callahan sat in stunned silence. A doctor at Massachusetts General Hospital had just asked him what the Veterans Administration thought about a brain mass he spotted on Callahan's MRIs.

"I looked at him and I said, 'Excuse me?' " said Callahan, who was seeing the growth for the first time on the neuro-endocrinologist's screen. "He just kept pointing at it with a mouse on all the scans. He just kept looking at me going, 'And the VA's never said anything?' He was dumbfounded."

Callahan felt a moment of vindication, then fear, then anger.

"The VA kept telling me that, you know, there's really nothing wrong," he said. "I was like, finally, I'm not crazy. This is something that's really going on ... I was horrified."

The 30-year-old former lance corporal from Dracut had been a machine gunner with 3/8 Marines in Iraq and Afghanistan. He had been rattled by several improvised explosive device blasts, and got a concussion from one. His November 2016 visit to Mass General was the first time the VA's images of his brain were reviewed by a non-VA doctor.

In the six years Callahan had been going to VA hospitals in Jamaica Plain and West Roxbury for treatment of debilitating seizures, he had never been told anything about the mass, which is benign and located between his pituitary gland and ocular nerve. He said the VA docs always chalked up his symptoms to stress, migraines or vertigo, and told him they couldn't see anything amiss on his brain.

Callahan — with a faulty diagnosis and a low disability rating — continued to struggle with the seizures, lost his job at a diesel trucking company and went on Mass Health, through which he ended up at Mass General.

Peter,

I wanted to shoot you a note and congratulate you on your new role as Chief of Staff for the VA. Based on what you have done at the Office of Accountability and Whistleblower Protection, I am confident you will do a great job.

Obviously, this was not an ideal time to assume your new position. As I told Secretary Shulkin in a phone call last week, it is my hope that the VA can move past the recent drama and get back to focusing on the upcoming community care reform along with implementing new accountability/transparency measures. I think there is a great team in place and it has been unfortunate to so many of them personally attacked by those who think they are defending the VA or the Secretary.

In that regard, I feel compelled to provide some feedback regarding this recent USA Today article:

<https://www.usatoday.com/story/news/politics/2018/02/28/va-secretary-david-shulkins-top-pr-aide-lobbied-congress-get-him-fired-sources-say/380726002/>

I have known Curt Cashour for 5 years and I worked with him closely during the VA wait list scandal. He has always been a consummate professional and I could never see him doing what is described in the above article. As I am sure you know, he also served. Since taking the job at the VA, I have spoken to him at least twice a month and never once did Curt speak ill of the Secretary. He never asked me or anyone else at CVA to help push the Secretary out and in fact only asked us to help defend the agency when it faced attacks from those opposed to the President's agenda.

To be clear, I don't work at the VA on a day to day basis and don't know the full extent of Curt's performance – there could be things (or many things) I am not aware of. But as I said earlier, I think you have some great teammates with you at VACO and it would be a shame to see some of them pushed out over this recent drama that they did not clearly begin.

All that aside – we at CVA are committed to working to improve the VA for the veterans who rely on it. Please let me know how my team and I can be of service to you.

Thank you,

Dan Caldwell
